Research Topic (2)

Title: The Ethics of Privacy Protection

Write research explaining the ethical dilemma between storing user data and using it for corporate profits.

The research should include:

- Explain what is data privacy

- Compare between the various data collection policies

- Explain what is GDPR and its importance

- Highlight with real life examples at least 3 privacy issues that happened because companies did protect the user privacy.

NB:

The form of the research should follow the following rules:

a. Writing using Microsoft Word.

b. Using Time New Roman font.

c. 14 Font size for text and 16 Bold for the title.

d. Single space between the lines.

e. Page margins are 2.5 cm from top, bottom, right and left.

f. The number of words is not less than 1000 words

h. English language formulation should be correct and sound.

i. Clarity of texts, pictures or drawings.
